

# CRITICAL INCIDENT MANAGEMENT PLAN

## SCOIL NAOMH TREASA

Bellewstown  
Drogheda  
Co. Meath

*Scoil Naomh Treasa* aims to protect the well-being of its students and staff by providing a safe and nurturing environment at all times. The Board of Management, through *Mrs McGuinness and the staff*, has drawn up a Critical Incident Management Plan as one element of the school's policies and plans.

### Review and Research

The CIMT have consulted resource documents available to schools on [www.education.ie](http://www.education.ie) and [www.nosp.ie](http://www.nosp.ie) including:

- Responding to Critical Incidents Guidelines and Resources for Schools (NEPS 201 6)
- Suicide Prevention in Schools: Best Practice Guidelines (IAS, National Suicide Review Group (2002)
- Suicide Prevention in the Community - A Practical Guide (HSE 2011)
- Well-Being in Primary Schools - Guidelines for Mental Health Promotion (DES, DOH, HSE 201 5)

### Define what you mean by the term 'critical incident'

The staff and management of *Scoil Naomh Treasa* recognise a critical incident to be "an incident or sequence of events that overwhelms the normal coping mechanism of the school". Critical incidents may involve one or more students or staff members, or members of our local community. Types of incidents might include:

- *The death of a member of the school community through accident, violence, suicide or suspected suicide or other unexpected death*
- *An intrusion into the school*
- *An accident involving members of the school community*
- *An accident/tragedy in the wider community*
- *Serious damage to the school building through fire, flood, vandalism, etc*
- *The disappearance of a member of the school community*

### Aim

The aim of the CIMP is to help school management and staff to react quickly and effectively in the event of an incident, to enable us to maintain a sense of control and to ensure that appropriate support is offered to students and staff. Having a good plan should also help ensure that the effects on the students and staff will be limited. It should enable us to effect a return to normality as soon as possible.

### Creation of a coping supportive and caring ethos in the school

We have put systems in place to help to build resilience in both staff and students, thus preparing them to cope with a range of life events. These include measures to address both the physical and psychological safety of the school community.

### **Physical safety**

- Evacuation Plan in place. In conjunction with the fire drill, all students know how to evacuate and where to congregate. Fire drills regularly occur – minimum of two per/term.
- Health and Safety Policy in place.
- Regular assemblies – these serve to remind children of the procedures in place for their safety and also to highlight school policies relating to the general wellbeing of each individual.
- Fire exits are clearly signposted and extinguishers are regularly checked.
- School Doors: The front school door operates on an automatic mad-lock. It remains locked throughout the day and can only be opened using a release button. Visitors need to be buzzed in to enter the school at the front entrance. The fire emergency doors are to be used for access and egress.
- An Administration of Medication Policy is in place and a list of all children with allergies / medical needs are circulated to all staff and also displayed in the staff room.
- Yard supervision – each day two staff members, a teacher and an SNA are on duty. Children are not permitted to play at the front of the school and are continuously reminded of our Playground Rules/Code of Behaviour.
- Gates are closed during school time. Access cannot be blocked off entirely due to stiles at the front entrance of the school.
- Children from Junior Infants – Second class are released to their parents at home time.

### **Psychological safety**

The management and staff of *Scoil Naomh Treasa* aim to use available programmes and resources to address the personal and social development of students, to enhance a sense of safety and security in the school and to provide opportunities for reflection and discussion.

- Social, Personal and Health Education (SPHE) is integrated into the work of the school. It is addressed in the curriculum by addressing issues such as grief and loss; communication skills; stress and anger management; resilience; conflict management; problem solving; help-seeking; bullying; decision making and prevention of alcohol and drug misuse. Promotion of mental health is an integral part of this provision
- Staff have access to training for their role in SPHE
- Staff are familiar with the Child Protection Guidelines and Procedures and details of how to proceed with suspicions or disclosures
- Books and resources on difficulties affecting the primary school student are available
- Information is provided on mental health in general and such specific areas as signs and symptoms of depression and anxiety
- Staff are informed in the area of suicide awareness
- The school has developed links with a range of external agencies
- Inputs to students by external providers are carefully considered in the light of criteria about student safety, the appropriateness of the content, and the expertise of the providers. See DES Circulars 0022/2010 (Primary)
- The school has a clear policy on bullying and deals with bullying in accordance with this policy

- There is a care system in place in the school using the "Continuum of Support" approach which is outlined in the NEPS documents published on 2007 for primary schools. These documents are available on [www.education.ie](http://www.education.ie)
- Students who are identified as being at risk are referred to the designated staff member, concerns are explored and the appropriate level of assistance and support is provided. Parents are informed, and where appropriate, a referral is made to an appropriate agency.
- Staff are informed about how to access support for themselves.

### Confidentiality and good name considerations

Management and staff of *Scoil Naomh Treasa* have a responsibility to protect the privacy and good name of people involved in any incident and will be sensitive to the consequences of public statements. Members of school staff will bear this in mind, and seek to ensure that students do so also, e.g. the term 'suicide' will not be used unless there is solid information that death was due to suicide, *and* that the family involved consents to its use. The phrases 'tragic death' or 'sudden death' may be used instead. Similarly, the word 'murder' should not be used until it is legally established that a murder was committed. The term 'violent death' may be used instead.
